AFONNE-CID PAUL ONYEDIKACHI

(+234)8071231219 | **delightinbusiness@gmail.com** | **LinkedIn**
Experience: > 1 year | **Available:** Immediately | **Location:** Port-Harcourt NG.

SUMMARY

I am a passionate early Frontend Engineer looking to build responsive and accessible user-facing interfaces with performant functionalities, digitize otherwise manual processes, and automate daily mundane tasks in life and business.
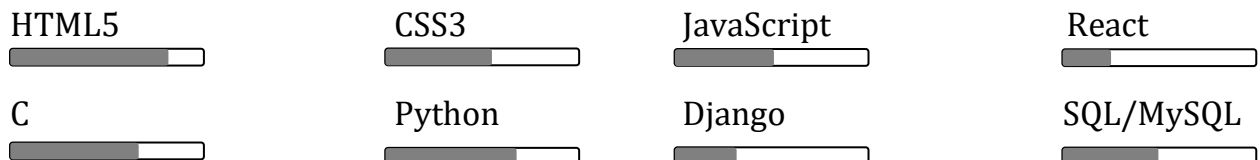

FRONTEND SKILLS/TECHNOLOGIES

HTML5 **|** CSS3 -> [Bootstrap] **|** JavaScript -> [React] **|** Git/GitHub **|**

ADDITIONAL SKILLS

C **|** Python -> [Django] **|** SQL/MySQL **|** Linux **|** Bash Scripting **|** ...

PROFICIENCY METER

HTML5	CSS3	JavaScript	React

C	Python	Django	SQL/MySQL

PROJECTS/EXPERIENCES

Project Title:	My Portfolio Site [*https://gifted-jang-9534d2.netlify.app/*] ✓
Target Problem:	Recruiters and employers may need to know me more or see my listed skills in action on live projects.
Solution:	I'm continuously aggregating some of mine ongoing, recent and past projects/experiences in a portfolio website.
Outcome:	Past projects/experiences become a click away, saving time.
Technologies Used:	JavaScript **|** HTML **|** CSS **|** Git/GitHub

WHY ME?

Even though I'm a beginner and barely one (1) year as a Software Engineer, I have spent 5+ years of my life in the computer world; from cyber café computer operator, to computer repairs, graphic design, blogger, one of the team that founded, launched and managed a live service in the education sector, and now a beginner and potentially one of the finest future Software Engineers in Africa and the world☺.

EDUCATION/ TRAINING

ALX Software Engineering Programme
ALX-Africa, 2021.

University of Toronto, Ontario, Canada.
Aspirant (Computer Science)
